PRODUCT CATALOGUE 2020

D & D is a brand of innovate, highest quality cometics based on natural components and formulas developed by world- renowned authorities in the field of cosmetics chemistry.

We personally supervise the production process, taking care to provide you the highest class cosmetics, not containing parabens, silicones, SLS, pretroleum derivatives. We are distinguished by a very content of active ingredients that help in obtaining lasting and spectacular clinical effects.

The production meets the rigorous requirements of GMP practices, confirmed by European ISO certificates.

COLLAGEN EMULSION

A gentle emulsion for face cleansing. Light texture and very soft formula based on **natural fish collagen, hydrolyzed pearls** and **orange oil** are suitable for all skin types, especially for sensitive and demanding. Carefully selected, extremely delicate ingredients make the collagen emulsion well-tolerated by the skin. Gently and thoroughly removes impurities and soothes irritations. Due to the high content of natural fish collagen, it deeply moisturizes and regenerates the skin.

Hydrolyzed pearls used in the emulsion have a high affinity with human keratin and have healing, antiseptic and anti-inflammatory properties. Mattifies and regulates sebum production. **Vitamin F** is responsible for restoration of lipid layer of the epidermis, **natural orange oil** increases the feeling of relaxation, well-being, relieves nervous tension.

Active ingredients: natural fish collagen, hydrolyzed pearls, orange oil, vitamin F

PEELING CREAM WITH AMBER AND PEARLS

Bioactive collagen peeling cream for cleansing the skin, contain **baltic amber powder** and hydrolyzed **micronized pure pearls**, based on a high content of grape seed bio oil. The **pure amber** micronized powder contained in the peeling gently exfoliates dead particles of epidermis, improves microcirculation, enriching the skin with micronutrients. It has strong antiseptic properties, regenerates the skin, penetrating into its deep layers, stimulates the metabolism, increases skin elasticity and firmness. Thanks to biostimulation, it prevents the formation of wrinkles.

Hydrolyzed pearls have cleansing and antibacterial properties, reduce visible imperfections and small scars, causing them to disappear completely. The minerals present in pearl powder, such as **calcium, sodium, magnesium**, have a tonic and soothing effect, combination of **amino acids** and minerals has a healing and stimulating effect on the metabolism of skin cells.

The **extract of orange blossom** normalizes the secretion of sebum, has an anti-acne effect. The creamy texture of the peeling prevents skin irritation and drying out. Peeling cream improves skin texture and promotes better absorption of nutrients. As a result natural skin tone, fresh and radiant look. Recommended for all skin types as a deep cleansing.

Active ingredients: Natural fish collagen, hydrolyzed pearls, natural baltic amber powder, Citrus Aurantium Dulcis flower oil (Orange oil - neroli), Vitis Vinifera oil

ENZYME PEELING

Enzyme peeling is a very delicate product designed for all skin types. Especially recommended for people with sensitive, dry and very dry skin.

Thanks to **papain**, a natural plant enzyme contained in peeling, it carefully and efficiently removes dead skin cells, giving the skin a healthy and radiant appearance. It smoothes the skin and makes it pleasant to the touch, and the addition of **collagen** improves the elasticity and firmness of the skin. The peeling contains **vitamin E** and **NMF** components such as amino acids, urea, lactates and PHA acids which enhance the barrier functions of the epidermis and guarantee perfect hydration. **Prunus Amygdalus Dulcis Oil** gives the skin a soft and smooth appearance and extract of **Imperata Cylindrica** root which provides the skin with considerable hydration.

Active ingredients: Allantoin, Alanine, Collagen, Elastin, Imperata Cylindrica Root Extract, Papain, Proline, Prunus Amygdalus Dulcis Oil, Serine, Shea butter esters, Urea, Vitamin E

OXYGEN BUBBLE MASK

An anti-wrinkle oxygen mask strongly stimulates skin renewal. It contains Filfow® which is one of the best known oxygen carriers that makes it the most effective anti-aging ingredient known in cosmetics. It is recommended especially for tired and dull skin, provides an immediate oxygenation effect, fills small wrinkles and promotes relaxation. In addition, it improves metabolism and epidermal reconstruction. Aquaxyl™ perfectly moisturizes the skin, including at the molecular level, because it starts the processes of restoration of the skin components responsible for this proper hydration. A special derivative of almond oil gently nourishes and soothes the skin.

Component Aquaxyl™ optimizes the skin's hydrous flow. Its mechanism of action identified by cosmetogenomics, controls water circulation and reserves.

Aquaxyl reinforces the synthesis of essential lipids and proteins involved in the organization of the corneus layer, all skin hydration elements are boosted (lipids, proteins, polysaccharides, NMF).

Modern system of Micromatrix® Fractile is based on natural polysaccharides, which forms a micro thin film complies perfectly the epidermic topography. This special structure functions as an active delivery system for advanced skin care formulations. The film also creates strong soft focus effect and a sensation of coolness upon application. It also provides skin hydration and a silky smoothness that lasts even many hours after application

Resplanta® ALM is a special water-soluble derivative of almond oil, which effectively nourishes and regenerates the skin.

Active ingredients: Filfow® BB61, Aquaxyl™, Resplanta® ALM, Micromatrix® Fractile, Hydrasoft®

ALGAE MASK WITH HYALURONIC ACID AND FISH COLLAGEN

For dry skin with wrinkles that needs moisturizing, strengthening and lifting. This mask based on **brown algae extract** with a high content of **natural fish collagen** and **hyaluronic acid**. Rich in easily digestible alginates, polysaccharides, amino acids, vitamins, iodine, calcium and magnesium compounds, as well as microelements. Strengthens the skin, deeply moisturizes it, relieves redness and irritation. The high content of natural high-quality **fish collagen** perfectly regenerates the skin, significantly reduces wrinkles and brightens the complexion. The addition of **hyaluronic acid** moisturizes the skin and supports the synthesis of collagen fibers.

Particularly recommended for dry skin without radiance.

Active ingredients: Natural fish collagen, hyaluronic acid, alginate (100% brown algae extract).

ALGAE MASK WITH KAOLIN CLAY, CALCIUM AND TEA TREE EXTRACT.

This mask based on high-quality **alginate** is a rich source of easily digestible proteins, essential fatty acids, various carbohydrates and vitamins (groups A, E, C and B), contains micro and macro elements (sodium, potassium, magnesium, calcium, iodine, chlorine, iron, zinc, copper, manganese). **Tea tree** oil extract has strong antibacterial and cleansing properties, kaolin clay normalizes excessive secretion of sebum and gives the skin a matte, velvety appearance. The addition of calcium reduces acne. The mask is best suited for problem skin prone to pimples, acne, as well as for oily skin with pimples and acne; combination skin with enlarged pores, irritations; mature skin, tired and dull.

The mask is also recommended for use after cosmetic microneedle mesotherapy (roller, dermapen) and oxygen therapy. Tones up the skin after acid peeling and ultrasound procedures.

Active ingredients: Clay, kaolin, calcium, tea tree, alginate (100% brown algae extract).

SERUM TWO PHASE

Synergy of nature and science, providing very fast, spectacular and deep effect. Serum based on **rich oils** (avocado, squalene and hippophae rhamnoides, castor, Evening Primrose). High containing of natural vitamin C in most efficient, unique form **Tetrahexyldecyl ascorbate** is very well absorbed through the skin. It provides effective antioxidant protection, penetrates into skin cells, reduces bleaching and restores collagen. According to scientist studies, vitamin C which used in the formula of the Serum acts in the deeper layer of the epidermis and even in the dermis. **SYN®-TC** tetrapeptide significantly increases the number of collagens (50-200%) to facilitate their unique contribution to beautiful smooth skin. The **Syn®-Ake** peptide acts by reducing muscle cell contraction, smoothing mimic wrinkles in a very short period. Modern **Tens'Up™** is an innovative active ingredient with an immediate lifting and tightening effect. **Carnosine** as modern, fully natural dipeptide, contain two amino acids especially effective in combating the signs of aging caused by ultraviolet radiation. It reduces age spots and irregular pigmentation, suppressing melanogenesis, stimulates the synthesis of collagen and reduces the appearance of pores. Due to the content of **hyaluronic acid** with two different particle sizes, the skin is very well moisturized.

This is a modern natural and professional cosmetic, which promotes total skin regeneration process towards biological recovery.

Active ingredients: Vitamin C (Tetrahexyldecyl ascorbate). Vitamin E (tocopherol), Provitamin A (beta carotene), Avocado oil, squalene, hippophae rhamnoides oil, Castor oil, Evening Primrose oil, hyaluronic acid, Tens'Up™, Carnosine dipeptide, Syn Ake neuropeptide, Syn®-Ake peptide

HAND SERUM

Hand serum based on the natural **fish collagen** with a high content of **vitamin PP** and **orange oil**. Natural collagen perfectly smooths the skin of the hands. Significantly improves resilience and elasticity. The high content of **vitamin PP** stimulates collagen synthesis, has a rejuvenating effect and acts against wrinkles. Stimulates blood circulation, improves skin color, hydration, strengthens the lipid barrier of the skin, has a strong antioxidant, healing and anti-inflammatory effect, soothes the skin. Natural **oil from orange** causes a feeling of relaxation, relieves nervous tension.

Active ingredients: Vitamin PP, natural fish collagen, orange oil

UNDER-EYE RENEWAL SERUM

A unique elixir based on an innovative formula, natural multi-target science based approach for taking care of the delicate and sensitive area around the eyes by improving the aesthetic appearance. Serum contain PHYCO'DERM® component with two potent seaweed extracts prepared from the brown seaweed Undaria pinnatifida and the red one Corallina officinalis. PHYCO'DERM® stimulates major defense systems for increasing resistance against environmental stressors and helps erase fine lines and wrinkles of the crow's feet inducing smoothing effect in the periocular area. Elixir creates a natural film on the skin, which prevents it from drying out and also slows the release of active ingredients. This allows you to get a long-term result of intensely moisturized and regenerated skin. Complexly regenerates and tones up, strengthening the lipid layer thanks to the ceramides which contained in the product. Eyeseryl®, modern **tetrapeptide** with anti-oedema properties reduces puffiness and dark in a decrease of water accumulation in eyebags. Raspberry Ketone Glucoside and gently titanium dioxide immediately reduces dark circles. Serum leaving the skin velvety smooth and saturated.

Active ingredients: PHYCO'DERM® (seaweed Undaria pinnatifida and Corallina officinalis), Eyeseryl®, **tetrapeptide**, Chondrus crispus extrac, phytosphingosine.black cumin seed oil

REGENERATING CREAM

Due to the very high concentration of **sweet almond oil** and **pure orange oil**, the cream restores and tones the skin. Because of its low molecular weight, cream penetrates deeply into the skin. Protects against harmful effects of the environment, sun, wind, cold. Strengthens the hydro-lipid layer of the skin, prevents cracking of small capillaries, the formation of so-called "spider veins".

This cosmetic is recommended as finishing cream, especially after acid peeling and cosmetic microneedle mesotherapy (roller, dermapen).

Active ingredients: Sweet almond oil, orange oil

HYPOALLERGENIC CREAM

Hypoallergenic Cream contains unique ingredients, including **prebiotics**. Xylitol and Lactitol as prebiotics combat germs in the skin system and promote growth of healthful resident bacteria. Prebiotics helps rebalance the microbial skin population in order to avoid abnormal desquamation, excessive dryness or adverse skin reaction. Modern, eco certified component **Simulskin™** contains hydrogenated sunflower fatty acids organized in a biomimetic lamellar structure. Offers immediate and long term skin hydration. It strengthens the cohesion of corneocytes and mimics interconeocyte cement structure and composition. The effect of the cream further enhances the plant extract **Imperata Cylindrica**, which provides an osmotic balance of skin cells. Well-hydrated skin needs a protective barrier. These functions are restored by a complex of elements rich in fatty acids, which prevent the loss of water from the skin, thereby improving its condition and protecting it from the harmful effects of external factors. Combination of moisturizing skin and soothing irritation

Active ingredients: Ecodermine (prebiotics), Imperata Cylindrica, Simulskin™

HIGH MOISTURIZING CREAM

The innovative formula provides an immediate feeling of comfort and freshness of the skin through active, long-lasting moisturizing action of the deep and upper layers of the skin. It contains carefully selected bio-absorbable moisturizing substances, thanks to which it helps restore the proper level of skin hydration, also in its deeper layers. The cream contains the complex of restoring substances, **NMF (Natural Moisturizing Factor)** – multiple amino acids, fatty acids, triglycerides, urea, ceramides, phospholipids, glycerin, saccharides, sodium PCA, hyaluronic acid and many other compounds that are naturally present in the skin. **Lipex SheaLight™**, Shea butter esters – it's a component of natural origin, which provides a feeling of velvety smooth skin, protecting it from the adverse effects of external factors and water loss. Very high content of **hyaluronic acid** perfectly supports the production of new cells. Extract from **two algae (Chondrus Crisps and Lithothamnium calcarum)**, extremely rich in minerals: calcium, zinc, magnesium, provides the skin with nourishment, regenerates and creates a natural film on the skin, preventing dryness. **Allantoin and Panthenol** have a soothing, anti-inflammatory function, reduce irritation, accelerate the process of skin regeneration.

Active ingredients: NMF (Natural Moisturizing Factor), Lipex SheaLight™ (Shea butter esters), hyaluronic acid, algs extract (Chondrus Crisps and Lithothamnium calcarum), Allantoin, Panthenol

MASSAGE BODY BUTTER

Special body butter is intended for skin care and moisturizing during massage. This product works multidimensionally: it intensively moisturizes, smoothes and softens the skin, provides it with the necessary lipid ingredients and also improves the massage process. After application the skin remains velvety smooth, carefully nourished and also becomes firm and elastic. Massage body butter stimulates the processes of regeneration and reconstruction of the epidermis, thereby promoting skin rejuvenation. The composition of body butter based on carefully selected valuable oils and vegetable oils including **shea butter, mango oil, coconut oil, avocado and macadamia oil**. Doesn't contain petroleum substances, silicones, parabens.

Active ingredients: Mango oil, shea butter, coconut oil, avocado and macadamia oil

BODY BUTTER with raspberry seed oil

Nourishing body balsam based on natural Baltic amber and raspberry oil. Amber acid is a powerful biostimulant which stimulates skin metabolism, has a strong regenerating effect, raspberry oil is rich in vitamins A and E, as well as omega-6 and omega-3.

Auxiliary action have caffeine extract, hyaluronic acid, as well as almond and coconut oil. Body balm provides proper hydration, blood circulation and skin protection from the harmful effects of external factors.

BODY BUTTER with avogado oil

Rich in active ingredients, silky body butter based on natural oil: avocado and coconut oil. It contains an extract of algae and vitamin E. It has a pleasant, saturated consistency. Strongly nourishes and regenerates skin. The skin becomes smooth, firm and pleasant to touch. Body butter and avocado oil are especially active in regulating of water and lipids, protecting, regenerating and nourishing the skin. They provide the skin with fatty acids, which are part of the cell membranes. Due to transesterification processes occurring on the skin, fatty acids are redistributed between the components of biological membranes and substances supplied oil and avocado oil.

GREEN CODE SHAMPOO

The formula of the green code shampoo is based on the **patented** synergy of active ingredients that cause nourishment and strengthening of the hair, activation of weakened hair follicles and **growth of new hair in baldness areas**. Thanks to the biologically active **diosmin** and **Hesperedin** we get the possibility of a real impact on the process of hair growth in the place where hair is formed. **Diosmin** causes contraction and relaxation of blood vessels in the hair follicle. The result of this is increased blood flow, which in turn means that more nutrients and oxygen are supplied to hair stem cells. **Micronized form** of diosmin remains on the scalp and is active even for several hours after washing. **Amino acid** structures contained in the shampoo stimulate hair growth and reduce hair loss. **Biotin and B vitamins** support the production of keratin, strengthen the hair matrix. It also protects against split ends. **Arginine** stimulates production of **melanin** – pigment responsible for hair color. Additionally supports blood circulation, dilates blood vessels, stimulates collagen production.

Lipoglycine contained in the shampoo helps to protect against androgenic alopecia. **Kali Muesli** (plant extract from Cuculigo Orchioides) tone the scalp skin and protects against infections. Ensures proper skin Ph after washing. The content **jojoba and argan oil** provides hair elasticity, softness, shine, moisturize and protects hair against breakage. At the end **Malic acid** closing cuticle scales and facilitates combing.

Just after a few applications, there is a visible improvement in the hair condition. During 2-3 months new, stronger hair growing out, even in places of baldness.

HAIR KERATIN MASK

A highly concentrated mask that promotes the regeneration and restoration of hair structure. Due to the content of the **extract of 12 plants**. The combination of these plants is specially designed to treat different problems of the hair, specifically hair loss, dandruff, greasy hair and seborrhoea. supports the phase of hair growth, strengthens hair follicles. **Natural collagen, provitamin B5, Jojoba oil and Shea butter** makes hair soft, shiny and easy to style. **Natural keratin** penetrates into the hair structure, repairing damages, deeply regenerate the hair and strengthening its protective layer.

Active ingredients: Collagen, Complex of vegetable extracts (Arnica, Great Burdock, Watercress, Calendula, Capucine, Ivy, Lemon, Chamomile, White Nettle, Pine, Rosemary and Sage), Jojoba Oil, Keratine, Provitamin B5, Shea butter.
